The Goals

If you have a future spending goal money, it might be wise to begin saving now. This can include items such as a boat, second home, wedding or vacation.

Goal: List the goal and how many years until you need the funds, the duration of the goal, for example if you would like to setup a vacation fund to provide for a vacation every year for 5 years, the duration would be 5, if the goal is a wedding, the duration is 1. Enter what the cost are today, how much, if any, you have already set aside for the goal and how much you are adding to the fund each month.

Goal	Years until the start	Duration of goal in years	Estimated cost, in today's dollars	Amount currently saved for this goal	Planned monthly savings
------	-----------------------	---------------------------	------------------------------------	--------------------------------------	-------------------------
